

We would like to invite you to a presentation entitled:

New Macromolecular Materials Enabled by ATRP

on Friday, September 8, 2023

at 10:00 am

room no 136/U17

Presented by: Prof. Dr. Krzysztof Matyjaszewski
Carnegie Mellon University, Department of Chemistry

Prof. Dr. Krzysztof Matyjaszewski is J.C. Warner University Professor of Natural Sciences and director of the Center for Macromolecular Engineering at Carnegie Mellon University.

He prepares advanced materials for biomedical, environmental, and energy-related applications. In 1994, he discovered Cu-mediated atom transfer radical polymerization, which was commercialized in 2004 in the US, Japan, and Europe. He has more than 1520 scientific documents (140,000+ citations, h-index 178 at Scopus) and 68+ US patents.

Prof. Dr. Matyjaszewski is a member of National Academy of Engineering, National Academy of Sciences and European, Australian, Polish Academies of Sciences. He received 2023 NAS Award in Chemical Sciences, 2017 Benjamin Franklin Medal in Chemistry, 2015 Dreyfus Prize in Chemical Sciences, 2011 Wolf Prize in Chemistry, 2009 Presidential Green Chemistry Challenge Award, and eleven honorary degrees.
