

CPS members and students are cordially invited to a presentation entitled

Polymers and the environment

Presented by: dr hab. Piotr Rychter

Jan Dlugosz University in Czestochowa

room 136/U17

26th April 2022 from 1:00 pm

Topics:

- Advantages and disadvantages of using polymers in the environment – degradability and ecotoxicological aspects
- Plastics and microplastics – use, waste and pollution

The presentation is primarily intended for Ph.D. and Mgr. students, but researchers/academics can also take part.
