

Carbon LabFactory Saxony

New research location for "green" carbon fibres and their processing

Prof. Dr. Lothar Kroll

Director of the Institute of Lightweight Structures and the affiliated Institute Cetex

Head of the Chair of Lightweight Structures and Polymer Technologies (SLK)

Spokesperson for the Cluster of Excellence MERGE

Scientific Director "Lightweight Construction and Textile Technologies" and Head of STEX (Chemnitz), ALight (Opole) and ATeM (Wroclaw) at Fraunhofer Institute of Machine Tools and Forming Technologies

Dr. Mario Naumann

Research associate at the professorship of Lightweight Structures and Polymer Technologies (SLK)

Head of the research area Carbon Fibre and Processing Technologies at SLK

Research associate at the Fraunhofer Institute of Machine Tools and Forming Technologies

Aneta Wandelt, M.Sc.

Research associate at the professorship of Lightweight Structures and Polymer Technologies (SLK)

Research area Carbon Fibre and Processing Technologies at SLK
